OBJECTIVE

I desire to use my education and vocational experience to work in a Christian church as part of the Pastoral staff. I desire to work in Spiritual Formation, that is, the teaching and preaching of Scripture, and to work with curriculum writing for the development of fully devoted disciples of Jesus Christ of all ages.

I want to be in an environment where I can build relationships with people and see them take the “next step of faith” whether that be a first step, a second step, or the fifty-fourth step. My favorite thing to see is when the truth of God “clicks” for people and they desire to follow Christ’s leading in their lives.
