OBJECTIVE

I desire to use my education and vocational experience to work in a Christian church as part of the Pastoral staff. I desire to work in Spiritual Formation for adults or students. Meeting people right where they are and being able to help lead them in a direction of obedience to Jesus and a life full and is what I believe God has called me to. To be able to make a career out of that calling is a great joy. I want to be in an environment where I can build relationships with people and see them take the “next step of faith” whether that be a first step, a second step, or the fifty-fourth step. My favorite thing to see is when the truth of God “clicks” for people and they desire to follow Christ’s leading in their lives.
